1. [REDACTED] was in this morning, and I discussed with him briefly the Office of Special Activities' proposal to establish an EDP branch. (Joe had not heard of this.) I telephoned [REDACTED] who didn't understand why it should have been sent to DD/S. I explained our responsibility for all automatic data processing in the Agency. He requested that I return the paper to him and said that he would ensure that it was properly coordinated with the Automatic Data Processing Staff. I told [REDACTED] that I would withhold my concurrence pending [REDACTED] recommendation and, in addition, that I would like to ensure that they include in the proposal the cost and other implications for the Office of Communications.

2. [REDACTED] was in to discuss with me the Congressional budget presentation and to explore the possibility of taking the DD/S reduction of 52 positions from somewhere other than the clerical pool. After discussing the matter at some length, he agreed with me that our plan should remain unchanged.

3. With Jim Garrison I visited [REDACTED] (There is a lot of "finishing up" to do, but we are in a position to move NPIC in tomorrow, 1 January, and will do so.) *H*

25X1A6a

4. I discussed with Jim Garrison my plan to have [REDACTED] relieve [REDACTED] as Chief of Support for the Office of Logistics. Jim wanted to retain Dick as long as possible, and I told him that we would make this change effective late next summer (1963) at a time which will permit Dick to take leave before going to the Industrial College in August. *25X1A9a*

5. [REDACTED] of NPIC, raised with me again the question of an open house at [REDACTED] for families of employees working there. At his request I checked this out with General Carter and advised Chick that General Carter shared my opinion that this would be very *desirable* ~~unadvisable~~. I also told him that General Carter was sympathetic to having something like an open house for selected members of the intelligence community after NPIC was in operation there. *H*
